## 2024\_28\_III\_OOPS Using Java Lab

### REC\_2028\_OOPS using Java\_Week 7\_MCQ

Attempt : 1  
Total Mark : 15  
Marks Obtained : 10

#### Section 1 : MCQ

1. Which of the following statements is true regarding default methods in Java interfaces?

#### **Answer**

A default method can be overridden in a class implementing the interface.

**Status :** Correct

**Marks :** 1/1

2. What is the output of the following code?

```
interface A {  
    static void display() {  
        System.out.println("Static method in A");  
    }  
}
```

```
class B implements A {
    static void display() {
        System.out.println("Static method in B");
    }
}
```

```
public class Main {
    public static void main(String[] args) {
        B.display();
    }
}
```

**Answer**

Compilation Error

**Status : Wrong**

**Marks : 0/1**

3. Consider a class implementing an interface and extending a class, both having a method with the same name. Which method gets called?

**Answer**

The method from the superclass

**Status : Correct**

**Marks : 1/1**

4. How do you call a static method from an interface MyInterface?

**Answer**

MyInterface.staticMethod();

**Status : Correct**

**Marks : 1/1**

5. What is the output of the following code?

```
interface X {
    default void show() {
        System.out.println("X's Default Method");
    }
}
```

```

    }
}

interface Y {
    default void show() {
        System.out.println("Y's Default Method");
    }
}

class Z implements X, Y {
    public void show() {
        System.out.println("Z's Method");
    }
}

public class Main {
    public static void main(String[] args) {
        Z obj = new Z();
        obj.show();
    }
}

```

**Answer**

Compilation Error

**Status : Wrong**

**Marks : 0/1**

6. How can a class explicitly call a default method from an interface if there is a naming conflict?

**Answer**

Using InterfaceName.super.methodName();

**Status : Correct**

**Marks : 1/1**

7. What is the output of the following code?

```

interface MathOperations {

```

```
static int square(int x) {  
    return x * x;  
}  
}  
  
public class Main {  
    public static void main(String[] args) {  
        System.out.println(MathOperations.square(5));  
    }  
}
```

**Answer**

Compilation error

**Status : Wrong**

**Marks : 0/1**

8. Can a Java interface contain both default and static methods?

**Answer**

Yes, but the class must implement all of them.

**Status : Wrong**

**Marks : 0/1**

9. What is the primary purpose of static methods in Java interfaces?

**Answer**

They allow an interface to provide helper methods without requiring an implementing class.

**Status : Correct**

**Marks : 1/1**

10. What is the output of the following code?

```
interface A {  
    default void show() {  
        System.out.println("A's Default Method");  
    }  
}
```

```
interface B {  
    default void show() {  
        System.out.println("B's Default Method");  
    }  
}
```

```
class C implements A, B {  
    public void show() {  
        A.super.show();  
    }  
}
```

```
public class Main {  
    public static void main(String[] args) {  
        C obj = new C();  
        obj.show();  
    }  
}
```

**Answer**

A's Default Method

**Status : Correct**

**Marks : 1/1**

11. If a class implements two interfaces that have the same default method, what must the class do?

**Answer**

The class must override the method to resolve ambiguity.

**Status : Correct**

**Marks : 1/1**

12. What is the output of the following code?

```
interface A {  
    default void show() {  
        System.out.println("A's Default Method");  
    }  
}
```

```
}  
}  
  
class B {  
    public void show() {  
        System.out.println("B's Method");  
    }  
}  
  
class C extends B implements A {  
  
}  
  
public class Main {  
    public static void main(String[] args) {  
        C obj = new C();  
        obj.show();  
    }  
}
```

**Answer**

B's Method

**Status :** Correct

**Marks :** 1/1

13. What happens when an implementing class does not override a default method from an interface?

**Answer**

The default method's implementation from the interface will be used.

**Status :** Correct

**Marks :** 1/1

14. Which of the following statements about Java interfaces is true?

**Answer**

A class can implement multiple classes and interfaces together.

**Status :** Wrong

**Marks :** 0/1

15. Which of the following is the correct way to declare an interface in Java?

**Answer**

```
interface Vehicle { void start();}
```

**Status :** Correct

**Marks :** 1/1
